

Manifestation

The Window Film Company UK Ltd can supply and install a wide range of glass manifestation for glass partitions, windows and shopfronts.

Building Regulations state that any full height glass used in windows, partitions and doors must be marked with some form of manifestation to ensure that is made apparent.

To meet the requirements of **Approved Document M**, manifestation should take the form of a logo or image at least 150mm high, or a decorative feature such as broken lines or continuous bands at least 50mm high.

The most popular film used for manifestation is frosted film, but glass manifestation can take the form which suits your requirements best.

The Window Film Company UK Ltd can create bespoke manifestation, incorporating your own designs or branding, helping you to meet current legislation in a stylish and beneficial way.

We also offer a range of existing designs, each prepared to enable you to meet your glass manifestation responsibilities quickly and efficiently.

Our installation service is available nationwide, meaning we can take care of your glass manifestation from start to finish, starting with the design and print, before finishing with a professional standard fitting.

Major uses Making glass obvious, meeting building regulations
